Summer 2019

A Beautiful New Smile with Dental Implants

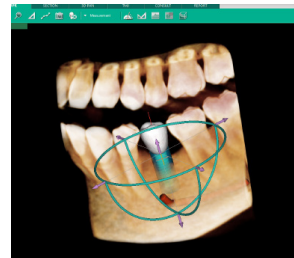

Let us give you a beautiful new smile by replacing missing teeth with dental implants. These “permanent” crowns are secured with precisely placed implants, which act as a new tooth “root” to hold your crown securing in place.

With our new 3D CT X-Ray scans, used in conjunction with modern CAD/CAM technology, your Doctor is now able to determine the precise position of an implant prior to the start of treatment.

A surgical guide is then created to ensure the treatment follows the exact digital plan. This superior level of accuracy helps provide a successful long term restoration.

Implants are only \$1,495 each. A Premium Crown attached to the implant can be precisely milled for a precise fit and is only \$1,045. Call us at 800-372-4554 or 800-354-1905 to schedule your next appointment today.

Regain Your Confident Smile With Orthodontics

Let us help you regain your confident smile for less with our new Orthodontics Service. Dr. Rosevear, a Specialist in Orthodontics, has teamed up with Dental Centers and is currently scheduling consultation appointments.

Together, with our Expanded Function Dental Assistants, licensed in Orthodontics, we can help you get started on your path to a beautiful new smile for much less than you might think.

Call us at 417-466-4554 to make your consultation appointment today, and let us help you regain your confident smile.
