## A Beautiful New Smile with Dental Implants

Let us give you a beautiful new smile by replacing missing teeth with dental implants. These “permanent” crowns are secured with precisely placed implants, to hold your crown securely in place.

With our new 3D CT X-Ray scans, used in conjunction with modern CAD/CAM technology, your Doctor is now able to determine the precise position of an implant prior to the start of treatment.

A surgical guide is then created to ensure the treatment follows the exact digital plan. This superior level of accuracy helps provide a successful long term restoration.

Implants are only \$1,495 each. A Premium Crown attached to the implant can be precisely milled for a precise fit and is only \$1,045. Call us at 800-354-1905 or 417-466-7196 to schedule your next appointment today.
