Making Smiles With Same Day Crowns

We will make you smile with a quality porcelain or composite (metal free) crown the same day at Dental Centers for the same cost or less of a traditional crown! Your crown is seated the day of your appointment, with no temporaries or second visit necessary. Computerized 3-D CAD/CAM technology allows us to digitally capture, design & craft a quality metal-free crown for you the same day! The results are a natural look and very precise fit.

PREMIUM SAME DAY CROWN.....\$975 / Per Unit

A high-quality porcelain crown milled and hand crafted for a precise fit the same day! Custom hand shaded for a very natural look. Very durable and stunningly beautiful.

BASIC SAME DAY CROWN.....\$595 / Per Unit

Basic composite crown with good fit and function. Three shades available. Milled and polished for a precise fit.

Changing Lives with Dental Implants

Let us give you a beautiful new smile and change your life by replacing missing teeth with dental implants. These “permanent” crowns are secured with precisely placed implants, to hold your crown securely in place, allowing you to eat the things you love again.

With our new 3D CT X-Ray scans, used in conjunction with modern CAD/CAM technology, your Doctor is now able to determine the precise position of an implant prior to the start of treatment.

A surgical guide is then created to ensure the treatment follows the exact digital plan. This superior level of accuracy helps provide a successful long term restoration.

Implants are only \$1,495 each. A Premium Crown attached to the implant can be precisely milled for a precise fit and is only \$1,045. Call us at 800-354-1905 or 417-466-7196 to schedule your next appointment today.

Flexible Partials Are A Popular Choice

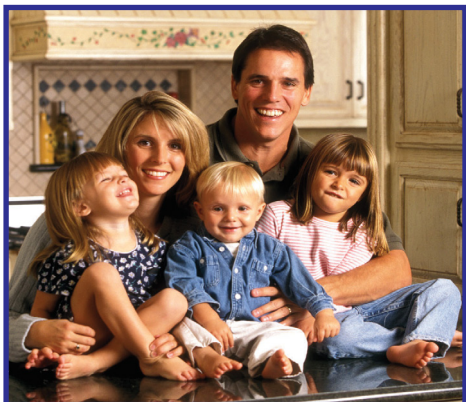

Our Flexible Partials continue to be a very popular choice among our patients. Flexible Partials are made with Duraflex, a revolutionary new thermoplastic, which makes them extremely durable; yet lightweight, thin and flexible with a minimal risk of breakage.

Because they are custom fitted to your mouth in our in-house lab, Flexible Partials offer a comfortable fit and feel. They are also completely metal free, giving a translucent, natural look that virtually disappears in the mouth!

Premium Flexible Partials are only \$1,095 per arch, and comes with a 5 year warranty and includes 6 months routine post delivery care that covers all adjustments, relines, rebase and repairs if required. Best of all, you can receive your new Flexible Partial usually in 3 days. Ask your dentist at your next visit if Flexible Partials are the right choice for you.

Zirconia Bridges are Strong and Beautiful

Recent advances in computer-generated CAD/CAM designed restorations and advances in high strength Zirconia provide us with the ability to create strong, beautiful and highly accurate bridges in a fraction of the time of traditional bridges. These bridges are metal free and computer milled from one solid block of Zirconia, resulting in a durable, chip resistant restoration with a natural translucence that can hide underlying discolorations.

The CAD/CAM design results in a superior fit, feel and functionality. You can also have your new Zirconia Bridge placed in about 3 days, much less time than the 3 weeks for a traditional bridge. Best of all, a Zirconia Bridge is only \$975 per unit. Ask your dentist if a high strength Zirconia Bridge is the right choice for you.
