## *Regain Your Confidence While Wearing Dentures!*

Are your dentures loose, making you afraid to smile or eat your favorite foods? Do your dentures slip when you talk, causing you embarrassment and frustration? It may be time to simplify your life with mini-implant therapy. This dental therapy is one of the most significant advancements in dentistry in recent years and has changed the lives of thousands of people by giving them immediate improvement in the stability of their dentures.

Done in just one day, mini-implant therapy involves placing several small implants to support and secure your dentures in place. Your dentures simply seat onto the mini-implants and securely remain in place while you laugh, eat and enjoy life with confidence once more. Many patients report enjoying a good meal and confidently engaging in conversation from the very first day their mini-implants are placed.

Now, mini-implant therapy is much more affordable! Our mini-implants are only \$1,750 for an upper arch and only \$1,500 for a lower arch. Now is the time to talk with one of our experienced dentists about the life-changing benefits of mini-implant therapy and experience the confidence for yourself. Call us at 800-354-1905 or 800-372-4554 to schedule your appointment today.

## Zirconia 3 Day Bridges are Strong and Beautiful!

Recent advances in computer-generated CAD/CAM designed restorations have led to advances in high-strength Zirconia and the ability to create strong, beautiful and highly accurate bridges in a fraction of the time of traditional bridges. These bridges are metal free and computer milled from one solid block of Zirconia, resulting in a durable, chip resistant restoration with a natural translucence that can hide underlying discolorations.

The CAD/CAM design results in a superior fit, feel and functionality. You can also have your new Zirconia Bridge placed in about 3 days, much less time than the 3 weeks for a traditional bridge. Best of all, a Zirconia Bridge is only \$925 per unit. Ask your dentist if a high strength Zirconia Bridge is the right choice for you.
